**Sunday: Embracing Our Baptismal Call**

**Tuesday: Embracing Our Blessedness**

To be human is to be holy. We tend to forget, amid all the supernatural happenings found in Sacred Scripture, that the warmth of human love, the gift of faith, and the blessing of hope are the constantly recurring graces that open our hearts to one another and allow us to share God's goodness.

When, on the evening before his death, Jesus came together with his disciples around the table, he shared the bread and the cup as a sign of friendship and all gathered received love, friendship and community. The disciples learned that God wants to come close to us, and we are to be holy.

Come experience the meaning of Holiness, A Journey Into Love, during this Lenten Mission.
